Game Description

“Operation Atlanta” is an 8-bit style role-playing game about the 2018 TSA National Conference in Atlanta, Georgia. The player begins at their house, goes to the airport with their friends, and travels to Atlanta to compete. This game is targeted for participants in TSA, in effort to simulate the experience of attending the TSA National Conference and to encourage them to work hard so that they can compete at the national level.

This game can be finished in about 5 minutes.

Controls

A mouse is not required for gameplay, only a keyboard is necessary.

Up Arrow: Move up / select item

Down Arrow: Move down / select item

Left Arrow: Move left

Right Arrow: Move right

X: Confirm selection, interact with players and objects, progress the dialogue

Z: Cancel, go back, hold to dash while the player is moving

Left Shift: Open the game menu

If you are ever unsure what to do in the game, try pressing the keys listed above. These are the only keys used in the game.

Bootup

Operation Atlanta is only supported for Windows, so the game must be downloaded onto a computer running the Windows operating system. Both 32-bit and 64-bit systems work. When the zipped archive containing the game has finished downloading, extract all contents into one directory. Double click “**OA.exe**” to run the game. A window titled “Operation Atlanta Configuration” will open.

Configuration

Under the “Graphics” tab, you may change the screen resolution to whatever you like. All resolutions have an aspect ratio of 4:3. You may also choose to adjust Graphics Quality, or whether the game should run windowed or full-screen. After the configurations have been set, click the “Play!” button to begin the game.

Initial Startup

An orange “Made With Unity” splash screen will appear. Once the splash screen disappears, the application may hang for a couple seconds. If this happens, please wait until the application loads. If the application stops responding, or if the hang time exceeds twenty seconds, exit the application and try again. Afterwards, a loading scene with the “YF Studios” logo will appear. When the game loads, you will be brought to the main menu of the game.

Menu

Press X to continue. You will be given three options, “Start Game”, “Credits”, and “Exit”. Use the up and down arrow keys to select between these items, and press X to confirm.

1. Start Game: Begins the game.
2. Credits: Gives credit where credit is due.
3. Exit: Exits the application.

Starting the Game

Select "Start Game" and press X to begin the game. You will be taken to a character select scene. Use the up and down arrow keys to select which player to use. Press X to confirm. (The character select scene was made so that we could import custom characters, but for judging purposes, we only provided the two default characters "Fred" and "Jen.")

Playing the Game

Use arrow keys to move around, and press X to interact with characters, objects, and progress the dialogue between characters. While the dialogue text is being shown, you can press X one more time to skip the typewriter animation and display the entire text. Throughout the game, characters will provide instructions on what to do, and you are free to interact with them at any time. You must walk up to a character or object and face them in order to interact with them.

Secrets

We have included secrets and easter eggs in the game .

- Interact with the piano at the player's house to play a piano version of the background music.
- The pudding at the player's house can be obtained after the player picks up the backpack and the inventory becomes available.
- When playing as Fred, you begin in the house on the left. When playing as Jen, you begin in the house on the right.

Tips

When you run, the hunger and thirst bars drain faster. However, they drain slowly, so you don't have to worry about them until they are close to 0. If either bar reaches 0, you will pass out and the game takes you to the menu scene. Fortunately, there are food stands available in both the airport and Atlanta city, and you are given generous amounts of money to buy food.

Walkthrough (this walkthrough assumes that Fred is the chosen player)

- Scene 1: Melon Town
 - Pick up the backpack blocking the exit.
 - Exit the house and move right until Jen starts talking to you.
 - Walk through the forest, and continue walking until you see a bus.
 - Talk to either Jen, Ross, or Lia.
- Scene 2: Mango Town Airport
 - Go up to the desk and talk to the check-in lady.
 - Walk pass the security guards to the right.
 - Walk through the security sensor, the light will turn green.
 - Follow the gray tile floor and turn right.
 - Continue moving right and walk into the tunnel.
- Scene 3: Atlanta city
 - Move right until you see a road going up.
 - Follow the road going up until you see a red brick building to the right.
 - Turn right on that road and move right until you see a gray building.
 - Enter the gray building.
